CALL FOR AWARDS

BEST REAL ESTATE OPERATION OF THE YEAR

Real Estate operations with exceptional financial up performance. The performance of real estate projects and operations is measured primarily by their ability to return to their shareholders and owners in relation to expected risk.

We seek to identify those transactions in excess of 20 million Euros that have achieved an exceptional return for their investors, clearly exceeding the average return of equivalent transactions, measured in terms of IRR or ROE, and whose essential supporting data can be publicly disclosed.

OPERATION WITH THE GREATEST SOCIAL IMPACT

Real Estate deal or investment project with extraordinary social impact. Because economic performance is essential but it is not the only objective that a real estate deal can achieve, from THE DISTRICT we want to help visualize the social commitment that the Industry has with all its stakeholders.

From THE DISTRICT we want to identify those operations that have had an exceptional commitment to social return. Operations that have contributed to the benefit of disadvantaged groups or entities, either for having been promoted or in which non-profit organizations, foundations, or similar, public or private institutions have been involved.

BEST REAL ESTATE INVESTMENT DESTINATION

The results of real estate projects and operations are the fruit of long-term commitments to the progress and development of a territory. Environments that offer legal security, agility in urban planning procedures, adequate infrastructures, promotion of economic, social and cultural activity, and preservation of the environment, its resources, and culture.

All territories wishing to participate in this call must send to THE DISTRICT essential information on the annual evolution of the main economic indicators (investment, GDP, ...), social (population, housing starts/projected, training/research centers, ...) and environmental/territorial (sqm transformed land, developed infrastructure, ...), as well as any other data that attests to the sustainable growth in the medium and long term that they are promoting.

REAL ESTATE OPERATION WITH THE GREATEST ESG IMPACT

Real Estate Investment is much more than economic performance. By incorporating environmental, social and corporate governance (ESG) criteria, the Industry shows its commitment to the Planet and its inhabitants, to carry out operations that contribute positively to achieving global objectives.

Operations that have made an exceptional effort in complying with ESG principles or have developed exemplary solutions in this area, can send basic details of the same to THE DISTRICT, highlighting up to 5 qualities that they understand as exceptional in their activity and that can lead them to receive this award from the Organization.

BEST REAL ESTATE FUND, MANAGEMENT COMPANY OR INVESTMENT GROUP

The singularity of the Real Estate Sector requires exceptional teams to achieve the best results. Diverse, expert teams with in-depth knowledge of the market and the ability to make professional decisions in complex scenarios.

THE DISTRICT would like to reward these exceptional teams, who have contributed significantly to making investment or divestment transactions in the real estate market, either for the performance they have obtained from their portfolios under management, for the quality of the assets that make up these portfolios or for the exceptional contribution they have made to the real estate market. Participants will be required to provide details and public data on these activities for evaluation.

BEST PROPTech STARTUP IN WHICH TO INVEST

Real estate technology (PropTech) startups tend to innovate in an accelerated manner to yield returns from their own activity. For this reason, they require investors who are experts in their technology or in the real estate market to accompany them in their development, through economic investments that allow them to reach and exceed the financial equilibrium that any company needs in the medium and long term.

PropTech companies that have raised capital over the last 12 months (or are in a position to do so in the next 6 months), may attend this call for the award promoted by THE DISTRICT, providing initial non-confidential basic data on the indicative post-money value of the last (or planned) round, percentage of equity redeemable, multiples that justify these valuations, number of previous rounds already completed, detailing the exceptional value proposition that can identify them as a strong candidate for best PropTech startups in which to invest. multiples that justify these valuations, number of previous rounds already completed, detailing the exceptional value proposition that can identify them as a strong candidate for best PropTech startups in which to invest.
